## PROTECT MISSISSIPPI'S VOTING RIGHTS!

Dear Attorney General Holder,

Nothing is more fundamental to our democracy than the right to vote. In Mississippi, we know too well about barriers to voting! MS's history of voter oppression and discrimination is not that far behind us and yet we are fighting for our right to vote again. We urge you to exercise your authority under the Voting Rights Act to examine these laws so that voting rights are not jeopardized.

These laws do nothing to address the problems that are actually threatening the integrity of the voting process, such as improper purges of voters, voter harassment, and distribution of false information about when and where to vote. Instead, these laws serve to disfranchise eligible voters and, in particular, have a disproportionate impact on racial and ethnic minorities, the elderly, low-income individuals, students, and voters with disabilities.

The Department of Justice has an obligation to fully enforce voting rights law. **In Mississippi we do not want to take a step backwards in a decades-long struggle to end voter discrimination.** I urge you to aggressively scrutinize these laws for discriminatory impact, examine and object to pre-clearance submissions that have a discriminatory effect, and bring cases where necessary to stop these regressive voter laws.

Sincerely,
